

The owl was wise to land at **Marco Island Authentics**, where its guardian angel was at work!

When **Fran Erickson** first noticed the owl outside her shop, she was excited to see her adorable visitor. But she knew the owl must be in danger because it stayed there way too long.

Fran is a kind and caring person, and she told me she was worried about the owl. I wasn't sure what to do, but I'm glad we worked together to find help for the owl. Not only did we do our part to save the owl, we became friends through our shared experience. And we will always share a great story!

Marco Island Authentics has left the Town Center and continues to make custom **Marco Island Outfitters** brand items for local businesses. For information on their work, go to <https://www.facebook.com/Marco-Island-Authentics>.
